

Task 3 – Reading into writing

Use the information from the four texts you have read to write an essay (200-230 words) for your teacher summarising how consumers are predicted to interact with their homes in the future and the advantages and disadvantages of predicted smart home technologies.

You should plan your essay **before** you start writing. Think about what you want to say and make some notes to help you in this box:

Planning notes

(No marks are given for these planning notes)

Now write your essay of 200-230 words on the lines below. Try to use your own words as far as possible – don't just copy sentences from the reading texts.
